

Special Education Information

Connections welcomes students with an IEP - Individualized Education Program!

Upon enrolling with Connections, the IEP Team will meet with you to determine how to best provide services to your child. In most cases the IEP Team recommends that students receive direct services at the attendance area schools; however, other options are available to the IEP Team. The Connections SpEd teacher can provide you with more information.

At any time, parents have the option to withdraw consent. The Connections SpEd teacher can provide you with more information and assist you with this process.

Questions can be addressed to: Amy Hagen, Special Services Director at 714-8881.
